HOW IT WORKS

All custom products under the CLOTHING DEVELOPMENT segment are made-to-order and only manufactured once an order is confirmed.

- Download the official tech pack and describe your piece in detail. You may refer to our sample tech pack as a guideline for how to fill it correctly.

- If your customization requirements are not fully covered in the tech pack, feel free to add comments, reference images, sketches, or any other supporting documents in the annex section.

- Send your completed tech pack to info@cfourstudios.com

- Our team will review your submission and provide a quote after analyzing the project.

- Once the tech pack is approved and your order is confirmed, we will proceed to production.

- Production will begin once payment is received and all necessary materials are ready.

- You will receive timely updates throughout the production process.

- After your products have passed our final quality control checks, they will be packaged and shipped to your provided address.
